In environments where chemical or toxic spills may complicate firefighting efforts, you can trust **Cavalier**® coated fire hose made by Crusader Hose. The protective polyurethane layer on the exterior of the woven jacket makes it an outstanding abrasion-resistant fire hose. **Cavalier**® is a versatile hose that is suitable for many high- and low-pressure liquid transfer applications. It is a popular choice for underground mines, industry and firefighting.

Within industrial settings, normal canvas layflat hose be easily damaged by abrasion and harsh chemicals. The **Cavalier**® polyurethane-coated jacket protects the hose from damage thereby protecting your investment. This sturdy and hardwearing layflat fire hose has the added benefit of easy storage.

Cavalier® is a first-rate fire hose fabricated using a filament polyester woven jacket and a PU/PVC interior lining with an added polyurethane cover available in 3 colours: red, green and yellow. **Cavalier**® is manufactured by Crusader Hose in our ISO 9001 quality-accredited factory and comes with a standard 12-month warranty against manufacturing faults.
