

RAPIER

NEW

Extruded Fire Hose

Features:

- ✓ Tough and abrasion resistant
- ✓ High Working Pressure 2100 kPa
- ✓ Type 3
- ✓ Class H (25mm to 65mm only)
- ✓ Light and quick to deploy
- ✓ Mildew resistant for long life
- ✓ Australian Standard AS2792
- ✓ Available in Red, Blue and Yellow
- ✓ 12-months warranty

Inside Diameter	Mass per Metre	Minimum Burst Pressure	Recommended Working Pressure	30m Coil Diameter
25mm	0.23 kg	5250 kPa	2100 kPa	0.39 m
38mm	0.30 kg	5250 kPa	2100 kPa	0.46 m
45mm	0.36 kg	5250 kPa	2100 kPa	0.47 m
51mm	0.43 kg	5250 kPa	2100 kPa	0.48 m
64mm	0.56 kg	5250 kPa	2100 kPa	0.51 m
65mm	0.56 kg	5250 kPa	2100 kPa	0.51 m
79mm	0.80 kg	3500 kPa	1400 kPa	0.53 m
90mm	0.83 kg	3500 kPa	1400 kPa	0.54 m
102mm	0.90 kg	2500 kPa	1000 kPa	0.55 m

Rapier® is the extruded fire hose made by Crusader Hose. A popular choice for both fire brigades and for use in industrial plant protection, **Rapier®** is a tightly woven high-pressure Type 3 fire hose fabricated with an extruded synthetic PVC/nitrile outer layer. This extruded cover gives **Rapier®** protection against abrasion and chemical damage as well as shielding it from oils stains and dirt.

The protective cover for **Rapier®** comes in a variety of colours ideal for identification purposes. Red or yellow hose may signify the fire hose, while a blue hose can be for wash-down. Customers sometimes like to choose their hose colour according to the colour scheme of their plant, or to reflect their corporate colours.

Rapier® requires no drying and is easy to store. **Rapier®** is Australian made and manufactured in our ISO 9001 quality-accredited factory and carries the approval of Australian Standard AS 2792-1992. Like all Crusader Hose fire hose products, **Rapier®** extruded fire hose comes with a standard 12-month warranty against manufacturing faults.
