EXCALIBUR

Fire Hose

Inside Diameter	Mass per Metre	Minimum Burst Pressure	Recommended Working Pressure	30m Coil Diameter
25 mm	0.16 kg	5250 kPa	2100 kPa	0.36 m
38 mm	0.23 kg	5250 kPa	2100 kPa	0.40 m
51 mm	0.28 kg	5250 kPa	2100 kPa	0.42 m
64 mm	0.35 kg	5200 kPa	2100 kPa	0.48 m
65 mm	0.35 kg	5200 kPa	2100 kPa	0.48 m

** For bigger diameters, refer to Centurion or Rapier.*

Features:

- ✓ Easy to handle
- ✓ Easy to store
- ✓ Mildew resistant
- ✓ Available complete with clamps & fittings and shut off nozzle
- ✓ 12-month warranty

EXCALIBUR® is a woven layflat fire hose made from polyester with a polymer lining. It is lightweight and very flexible making it easy for almost anyone to handle put out fires. It is a popular choice for industrial and domestic fire protection.

Due to its synthetic construction, it is mildew resistant and does not require drying. It can be easily rolled up or folded and takes up little storage space. It is stored in fire cabinets across many industrial sites and properties. By quickly opening the valve or starting the fire pump, Excalibur can help extinguish the fire before the brigades arrive.

Crusader Hose also offers the **EXCALIBUR®** as a ready-to-go Fire Hose Kit, complete with a shut-off nozzle and fitted couplings. This will connect directly to your fire pump and allows far reaching water spray. This is a major safety benefit for those living in bush-fire prone areas.
