

Centurion®

Premium fire hose

12
MONTH
WARRANTY

The **Centurion®** is the professional firefighting brigades' fire hose of choice. Crusader Hose has been manufacturing this hose for over 35 years, and it has subsequently improved in performance over that time. It has been developed by understanding the tough and extreme conditions firefighters have to deal with regularly.

This Class H hose is woven with spun polyester fibres, which gives excellent abrasion resistance and flexibility. This hose is not only lighter and easier to handle compared to an extruded or rubber fire hose, it is also easier to roll up and takes up less storage space. Using **Centurion®**, firefighters have less weight to carry when they run up or around a building.

The spun polyester fabric is fully synthetic so it does not require drying after use, although drying does prevent surface mould stains. **Centurion®** has Australian Standard AS 2792 and Australian Defence Force DEF 5195A approval. It is used by the NSW Fire Brigade, several brigades of Fire Rescue Victoria, and the Australian Army.

FEATURES

- ✓ Excellent abrasion resistance
- ✓ Mildew resistant
- ✓ High-pressure Class H
- ✓ Standards approved
- ✓ Lighter than extruded hose
- ✓ Australian Made
- ✓ Low-coil size
