

Argyle

Layflat hose handling solution

IDEAL FOR

- Emergency dewatering
- Low workforce requirements
- Minimising OH&S issues
- Desired low environmental impact
- Civil works, industrial & mining operations

The **Argyle** is a popular brand in our Reel Systems Family. This innovative layflat hose reel winder from Crusader Hose has been designed for the rapid deployment and retrieval of layflat hose.

Crusader Hose fabricated the **Argyle** to help alleviate the manual labour challenges associated with handling layflat hose pipelines. This reel system makes handling layflat hose easy, safe and more efficient.

Revolutionary in design, the **Argyle** is compact & modular. Trailer-mounted and driven by a hydraulic motor, the **Argyle** is perfect for civil works, industrial and mining operations.

FEATURES

- ✓ Two reels - individually operable
- ✓ Trailer-mounted
- ✓ Rated lifting & tie-down points
- ✓ Free-spool capability
- ✓ High-torque motor
- ✓ Quick-connect couplers
- ✓ Heavy-duty frame
- ✓ Modular - easy to store
- ✓ Hot-dipped galvanised or painted frame
- ✓ Key start engine (diesel or petrol)
- ✓ Handheld remote control
- ✓ Safe & reliable
- ✓ Australian Made

TECHNICAL DATA

Reel capacity	Two reels (1600 mm Ø x 360 mm W)
Max. hose capacity*	2 x 100 m x 8" hose
Hose ID compatibility	up to 8" layflat
Dimensions	116 x 174 x 174 cm H
Weight (dry/wet)	650 kg / 1600 kg

*Capacity dependent on winding tension, type of hose & couplings
