

Fortex™

Rubber extruded fire hose

Fortex is an extruded rubber hose for professional firefighting applications. It is made by weaving high-tenacity yarns and covering the textile reinforcement with a synthetic rubber compound. This process creates a high-pressure fire hose that is abrasion and chemical resistant.

Fortex is a Type 3 fire hose. The robust protective cover can withstand heavy brigade use of being dragged across rough ground. It is also Class H, the highest-pressure rating for fire hose. This extruded rubber fire hose is maintenance-free, requiring only a wipe down after use, thus eliminating the need for drying.

We offer a wide range of couplings, which we securely fit to the hose and provide a test certificate if required. This hose has the British Standard BS6391 approval.

FEATURES

- ✓ Extruded rubber cover Type 3
- ✓ High working pressure 2100 kPa
- ✓ Chemical & abrasion resistant
- ✓ Flexible & easy to handle
- ✓ Maintenance-free
- ✓ BS6391 approved
- ✓ Fitting & testing service

MILDEW RESISTANT

ABRASION RESISTANT

TECHNICAL DATA

Diameter (ID)	38 mm	64 mm
	1.5"	2.5"
Working pressure	2100 kPa	2100 kPa
Burst pressure	6000 kPa	5500 kPa
Weight/m	0.33 kg	0.55 kg
30 m coil diameter	0.47 m	0.49 m
Part #	HHF038XRA	HHF064XRA
